A Democratic Fizzle.

For several weeks past the Democratic papers of the district have been circulating a call for a Congressional convention to meet here on next

For some days, the organ and its neighbor have been publishing a call for a county convention to nominate delegates to the district convention. The county convention met yesterday, and was one of the most decided fizzles we have ever described. We were not present ourselves, for after it became evident that a failure was certain, it was decided to hold the convention at an hour when "outsiders" would not us brief and pointed letters, giving items of interest in their several localities. We desire to have something of local interest in every issue for our East Tennessee ously, and the faithful gradually gathered. And such a gathering as there was. They were but few in number, but they came for "biz," and determined to do up their work and adjourn. It was on the principle of taking a dose of medicine-the sooner it was over the better.

When some twenty or more had assembled, our aldermanic friend, Rufe Bearden, was called to the chair. Rufe is a clever fellow and makes a capital alderman, but had on this occasion too much of an eye to business. He stated briefly the objects of the meeting, and declared it was a genuine Conservative convention, and no lar purposes. milk and cider thing about it. Mr. Bearden was flanked by two secretaries-Mr. J. A. Hoods of the Whig, and J. B. Howard, one fof the beautiful, high-toned trio who grind at the

On motion, committee was appointed to name delegates to the district convention-two from each ward of the city, and two from each district of the county. W. L. Ledgerwood, A. Caldwell, Thos.O'Couner and Bob Woods were

appointed as said committee. While the committee were out, several gentlemen were asked to speak, but nary a speech could be had. Business was uppermost in every mind. There was not enthusiasm enough in the whole crowd to provoke a single word from any of the speakers present.

The committer turned and reported a long list of delegates. We haven't room for them, but among the city delegates were James R. Cocke, Thus, O'Conner and Thos. A. Lewis, and from the country, Maj. D. A. Carpenter, Wm. P. Crippen, S. Anderson, W. Wilhoit, and W.

Walker and others. On motion of James Williams, Esq., it was resolved that after the district convention adjourns next Saturday, Knox and Roane county delegates should nominate a Senator, and Knox

The convention then adjourned. We heard of several of those present, and prominent leaders n the city, declaring it a --- fizzle. Col. John Williams' friends, we understand, are dissatisfied, but do not know why. The delegates, as able. far as we know them, are all his friends. One of the delegates present, after the convention ljourned, was very zealous in urging upon one of our Republican friends-not the Attorney General, either-to allow his name to go before the convention Saturday, assuring him that if he did he could be nominated. This is one proof of the demoralization that has spread among the faithful. The policy of the junior cyclops has

Dried Fruits.

We notice in the market reports of the New York Standard, a report of the sale of the first arrival of peeled Southern peaches of the crop of 1870. They were shipped to Messrs. J. M. Atwater & Bro., 61 Pearl street, and were sold for twenty cents per pound. The market price was from 15 to 18c. The same report complains of the grade of dried apples sent from the South, they being dark and poor and slow sale. Choice bright apples, fine cut and sliced, are in above named.

The faded cheek, the pale and wan features, the dull eye, the clouded intellect, the deep heaving sigh, the feeble and emaciated frame, the dejected brow, the tottering gait, all indicate previous transgression of law. Knowing that "procrastination is the thief of time," all intelligent beings apply for some remedy as soon as circumstances permit; while those who do not act upon the principle that "delays are dangerous," generally linger, lose more time and pay more money. lose more time and pay more money.

Thousands of mothers and daughters, in all stations and conditions of life, are suffering, lingering and dying from the effects of some dreaded and dreadful

Female Complaint,

That claims its victims thoughout the length and breadth of our land.

Many females suffer in some way at each monthly pe-Many females suffer in some way at each montally period; some girls are in great peril at the commencement of menstruation, while older ones dread its decline at the "turn of life." Sometimes the menstrual flow is too much, or too little, or may be attended with pain; may be irregular or entirely checked, or changed in appearance, attended with other distressing symposus. Leacorrhæs, or the "Whites," frequently drains the system of the women may create main and tem, or ulceration of the womb may create pain and cause rapid prostration.

Falling of the womb is an exceedingly common complaint, giving much trouble and distress, which, under

ordinary treatment, is difficult to cure.

Hysterics, Green Sickness, Irritability of the Womb,

and other serious and fatal complaints follow the female sex throughout life. Lives there a medical gentleman who has or can relieve the fair sex of the above troubles? Not many. Is there no combination of remedial agents that will come to her rescue? We answer.

English Female Bitters,

The only acknowledged Uterine Tonic and Female Regulator known, will cure all those complaints above mentioned in an incredibly short time. The Bitters at once arouses, strengthens and restores the womb to its natural condition, removing obstructions, relieving pain and regulating the monthly period. Tonder stands a pale, feeble and languid girl, just bursting into womanhood; she is the pride of all, but hark! she silently steals a pickle, eats chalk, or a slate pencil; no appetite for food; she turns with a dull eye and seeks solitude; her eye no longer sparkles, her merry laugh is no longer heard ringing through the air; she mopes about with bloodless lips and gums, with headache, palpitation, constipation, swimming of the head, cold feet and hands, melancholy; she has a coated tongue, offensive breath, and a host of other ewils too numerous to mention.

to mention.

When neglected all these symptoms become aggravated, there is sick stomach, heartburn, a dark line settles under the eyes, the legs and ankles are swollen, the hair loses its gloss and falls off, there is brittleness and splitting of the finger-nails, swollen abdomen, extreme nervousness, fretfulness, pains and aches, dry cough, hysterical fits, rapid prostration, epilepsy and death! If you, or any of your friends, are thus afflicted, send at once for a Bottle of English Female Bitters and be cured. Its effects are magical in such complaints. Surely no mother will postpone and delay this duty

Death is at the Door.

In all these complaints the system evidently shows a want of red blood, and Mr. Churchill, in his work on Discases of Females, says: "Bearing in mind that the blood is remarkably deficient in red corpuscles, and the known property of iron to correct this condition, theory suggests it as the most to be relied on, the best of which is the Citrate. Citrate of Iron enters largely into the composition of English Female Bitters, combined with powerful vegetable tonics of rare qualities. powerful vegetable tonics of rare qualities.

Among the mountains of Tennessee and the piney woods of Alississippi, is found a certain hard and flinty root, which has been in secret use by some old midwives for many years, possessing magic powers in regulating and restoring all females suffering with any affection of the womb. This root we have obtained, gave it a fair test in our practice, and it is now one of the principle ingredients in these Bitters. Other powerful uterine and general tonics also enter into its composition. We also add Leptandra or Black root, sufficient to act upon the liver and keep the bowels open. SHAFTING, PULLEYS

Blooming Young Girls,

Middle-aged matrons, those at the critical period, and the aged grandmother, are all cured by the use of our English Female Bitters, now preseribed and used by physicians all over the country.

If you are troubled with Falling of the Womb, attended with a sense of weight and bearing down pain in the back and side, and other attendant evils, English Female Bitters will give entire relief.

Those at the "turn of life," mothers after confinement, and all others (male or female) who are convalescents from any protracted or debilitating complaint, who gain strength slowly, and whose digestion is slow and imperfect, will find these Bitters the very thing their system demands. It gives a powerful appetite, aids and assists digestion, arouses the liver, strengthens mentally and physically, and fills the whole system with pure crimson blood coursing through its channels.

Common Grogshop Bitters

Empty bitter bottles, of various styles, can be found around almost every dwelling and cabin throughout the land. Their taste is pleasant, and are advertised to cure almost every disease, while the manufacturers know they possess no medicinal properties whatever. They are so many disguises for exceedingly common beverages, which do not, nor cannot, possibly cure any one. one.

Beware of these pleasant bitters in quart bottles; they contain a sting for your vitals, and he who buys them carries a "toper's" grog into his house. One man who knows nothing about medicine, says his big bottles of common stuff will cure chills and fever, rheumatism and consumption; another, whose bottle is very faner, cures all impurities of the blood, makes old men roung, casts out devils, restores sight to the blind, and numerous other miracles; while yet another, who presumes every man a drunkard, proposes to cure colic, ingrowing nails, yellow fever, heart disease and love-sick maidens! We know they make no such cures; we know the people at large are deceived and swindled, and as we desire to ventilate these common humbugs, make the following challenge to one and all:

One Hundred Dollars
